INVESTOR IN PEOPLE

# Foreword

On behalf of the Board of Directors, staff, volunteers, members and young people, I am pleased to present our strategic plan for the next 5 years. We do this in the context of a difficult economic climate, with disproportionately high youth unemployment; where the impact of the new Welfare Reform Act is yet to be assessed; and during a restructuring of public administration.

We are ambitious to tackle some of the issues most critical to young people in Northern Ireland and, with others, contribute to a flourishing population in a stable society. Throughout this plan we are striving to improve the life chances of young people, close the performance gap and involve young people in a shared future for Northern Ireland.

This 5 year plan focuses on the outcomes we seek to achieve for young people. The associated actions are presented as locally based, youth work actions and strategic actions, working collaboratively to lobby and advocate with and on behalf of young people.

We will be celebrating 70 successful years of our organisation in 2014 and I am looking forward to reporting back in 2017, on the impact we make.
